## **Summary of the Manual Tally of Voting Equipment February 5, 2008 Presidential Primary Election**

### **1% Manual Tally**

Per Elections Code Section 15360, 1% of precincts must be hand tallied to determine that the voting system is reading and tabulating votes correctly. For February 2008, there were 180 precincts. There were 5 precincts randomly selected to check in the manual tally.

**Precinct 124513 (all contests tallied)**

- No discrepancies were found.

**Precinct 10100 (all contests tallied)**

- No discrepancies were found.

**Precinct 91102 (Measure B – Lindsay Unified School Bond Measure)**

- No discrepancies were found.

**Precinct 157201 (Measure E – Tipton Elementary School Bond Measure)**

- No discrepancies were found.

**Precinct 53101 (Measure D – Exeter Union Elementary School Bond Measure)**

- No discrepancies were found.

**In summary, our Insight machine tally matched the hand counts with 100% accuracy.**

### **100% Manual Tally of Votes Cast on Touchscreens (Edges)**

In addition to the 1% manual tally mandated by state election code, the Secretary of State mandated that 100% of all votes cast on touchscreens must be hand tallied to confirm the electronic results. Tulare County sends one Edge to each polling place on election day. We had 75 polling places in the February 5, 2008 Election. All Edges were manually tallied. There were no discrepancies or reportable incidents in their tally.

**In summary, the results from the manual tally matched the Edge/Verivote machine results with 100% accuracy.**
